New Workshop Space and New Year

Dear Business Partner,

and another year is over and we often wonder where the time has come. One answer we have: You very valued customers, have kept us busy with many exciting jobs.

Thank you for your confidence in the capabilities of the entire KRAFFT team. We did not manage to do all things perfectly fine. But we are very happy with the progress made by the employees in our company. We would like to send this recognition to our employees and we continue to work on our goals. Thank you dear colleagues.

For the colleagues in Krefeld at WUMAG TEXROLL, we are happy about the positive feedback that expresses the trust of the customers in the employees.

In addition to the many different projects, we continue to strive to improve. For this we invest in the locations in Düren. At plant 1, we will complete the extension of the concrete works at the turn of the year:

- From January we will start using the new premises step by step.
- In January, a new stone grinding machine will be installed.
- The new 13,800 mm belt grinding will be installed at the end of February.

We will keep you informed about the exact scope.

KRAFFT will be 150 years young next year. We are working on building a next and international generation in personnel and technologies.

In all these years we were allowed to deliver our products worldwide.

We can work with other nationalities and cultures, get together and even exchange ideas personally, even having a “compliant beer” in the evening. We regard this as an incredible enrichment, also for our young employees, to exchange and get involved across borders.

Often we have the same challenges through work, family, environment etc., regardless of origin and religion. So a lot more things that connect us than separate and the differences are the exciting things to discover.

We wish you all the best from Düren for the New Year and, hopefully, a few relaxing days with your family and friends.

Last year we closed the newsletter with John Lennon's "Give peace a chance". Obviously more relevant than ever. We also like the ABBA title:

Happy New Year;
 May we all have a vision now and then;
 Of a world where every neighbour is a friend

We are happy to be your neighbours.

With kind regards from your KRAFFT team in Düren.

About KRAFFT:

KRAFFT is one of Europe’s leading manufacturers of and specialists for rotationally-symmetric components. The knowledge gained from building plants for the production of paper and cardboard was consequently aligned to new products and product segments:

- KRAFFT Rollers – KRAFFT Walzen** is the company’s flagship brand for rollers, cylinders and drums
- KRAFFT Pulleys** pulleys for the conveyance of bulk materials as a drive, tensioning and deflection drum in conveyor belt systems
- KRAFFT Turning Technologies** turning parts and large turning parts are used in plant construction and engineering, shafts and mandrels
- KRAFFT Engineering** Engineering and projecting, turn-key systems
- KRAFFT Services** service and maintenance, repair, assembly
