

Reel Spools

for Applications in Paper
and Tissue Production

- Manufacture and Service
- Large Diameters over 1,200 mm
- Face Length over 11,000 mm
- For Paper weight of 100 tons or more
- Highly dynamically balanced
- Designed for high Acceleration Ramps

Optional

- Cover
- Coupling
- Bearings

Reel Spools

for Applications in Paper and Tissue Production

Customized Base Construction with

- welded or dismountable screwed Journal

For tissue paper optionally equipped with

- Vacuum Rings

Design and dimensioning of

- Couplings
- Bearings
- Acceleration Ramps

With selected Coating Systems

KRAFFT Mega-Spool

- Diameter over 1,200 mm
- Face Length over 11,000 mm
- Weight of Paper more than 100 tons
- High degree of Balance to G1 at 3,000+ m/min
- Surface Individual Application
