High-Class Chill Roll for Optical Films

Dear Business Partner,

this time it is hard to translate the German newsletter, as we are using song titles around “Carnival in the Rhineland” which started yesterday 11th November at exactly 11.11 h. Nothing which can be explained, you need to feel or celebrate it.

We are proud to supply one of the biggest Chill-Rolls in the world, having a diameter of 3.800mm, a facelength of 4.200 mm with a weight of 39,6 tons. Last night it started its way to being chrome plated over the next months.

The rolls is used to produce highest quality foils for optical applications, an absolute benchmark product.

Thanks to all having us in the team and thanks to our guys for this brilliant work-piece.

With kind regards from your KRAFFT team in Düren.

About KRAFFT:

KRAFFT is one of Europe's leading manufacturers of and specialists for rotationally-symmetric components. The knowledge gained from building plants for the production of paper and cardboard was consequently aligned to new products and product segments:

- KRAFFT Rollers – KRAFFT Walzen** is the company's flagship brand for rollers, cylinders and drums
- KRAFFT Pulleys** pulleys for the conveyance of bulk materials as a drive, tensioning and deflection drum in conveyor belt systems
- KRAFFT Turning Technologies** turning parts and large turning parts are used in plant construction and engineering, shafts and mandrels
- KRAFFT Engineering** Engineering and projecting, turn-key systems
- KRAFFT Services** service and maintenance, repair, assembly
