

Customer and Supplier Information

1st April 2020

“... like online...”

Dear Business Partner,

Younger people thought that we should "set up a shop" on our homepage that "looks like the one on the Internet at x".

Well, give it a try: The single or double jacket roller from KRAFFT rollers for the manufacture and finishing of web-like goods in the paper and pulp, wood, film, textile and food industries, in automotive equipment and for floors, etc., up to 15,000 mm face length and 5,500 mm diameter.

Customers, be interested in KRAFFT rollers can also find:

Bearings

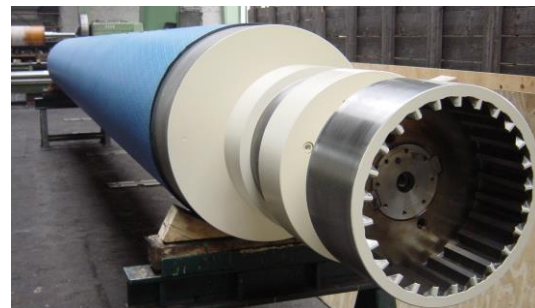

Guide systems

Drive elements and interfaces

Covers and coatings

Clutches

„... and we should also create an incentive to buy“. Okay, let´s do the utmost:
Free, but only one roll per roller (order intake 04/2020)!

... and we should develop new and innovative products for smart living ...". Because of the current developments and the enormous increase in value for the product "toilet paper", we rely on handcrafted solutions from our subsidiary KELZENBERG + CO from the 80´s. At that time, the business model did not seem conclusive to us, but today the "Roller Safe" shows its full potential.

We hope that you allow us a little digression into the satire and that you agree with us that you should never let the humour go away.

Stay healthy and optimistic! With kind regards from your KRAFFT team in Düren.

About KRAFFT:

KRAFFT is one of Europe’s leading manufacturers of and specialists for rotationally-symmetric components. The knowledge gained from building plants for the production of paper and cardboard was consequently aligned to new products and product segments:

- KRAFFT Rollers – KRAFFT Walzen** is the company’s flagship brand for rollers, cylinders and drums
- KRAFFT Pulleys** pulleys for the conveyance of bulk materials as a drive, tensioning and deflection drum in conveyor belt systems
- KRAFFT Turning Technologies** turning parts and large turning parts are used in plant construction and engineering, shafts and mandrels
- KRAFFT Engineering** Engineering and projecting, turn-key systems
- KRAFFT Services** service and maintenance, repair, assembly
